DRIVER OPTIONS

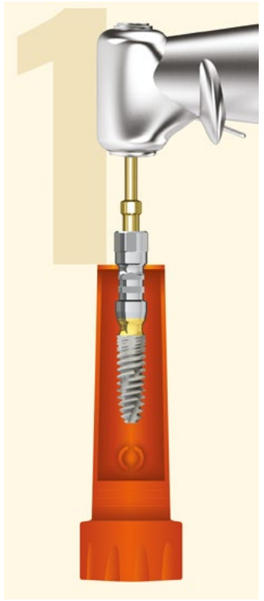

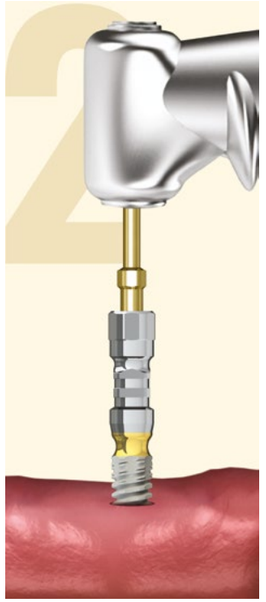

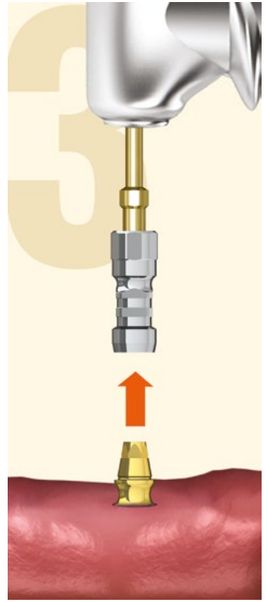

⚠ Can be used with a Motor via a K8 and K8D

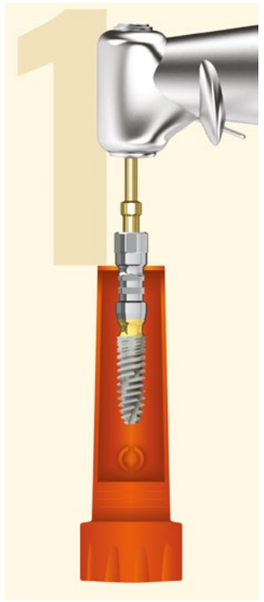

⚠ Can be used with a ratchet or Torque ratchet via a K5 or a K5D or even a K5-0

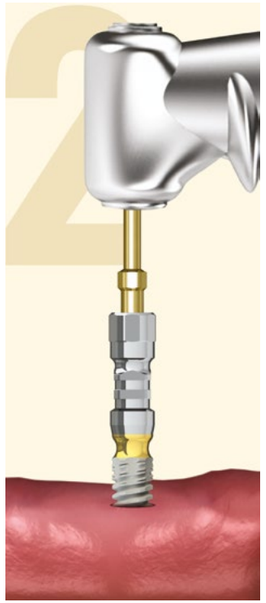

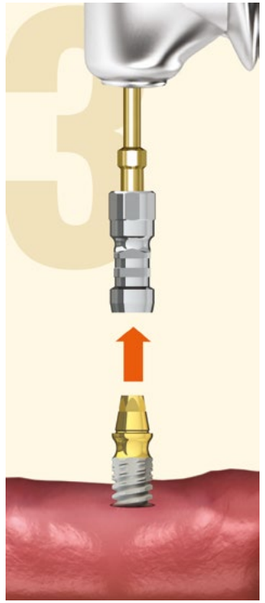

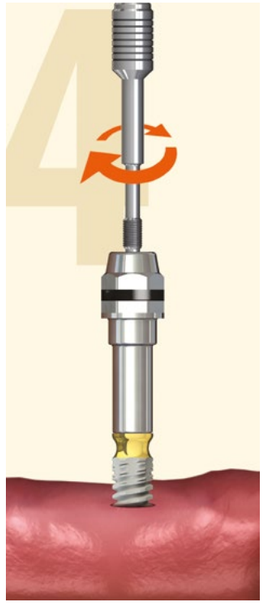

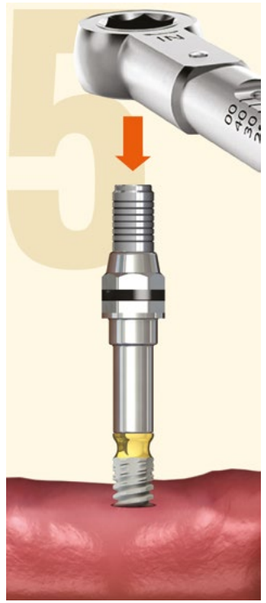

DRIVER OPTIONS

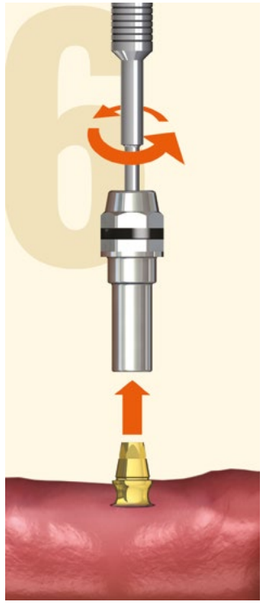

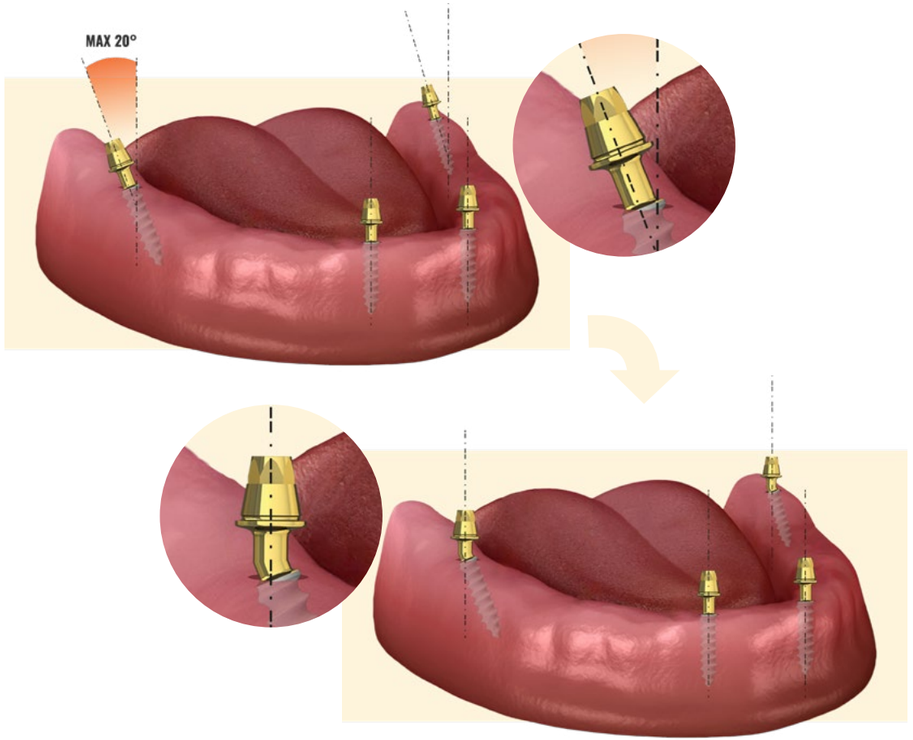

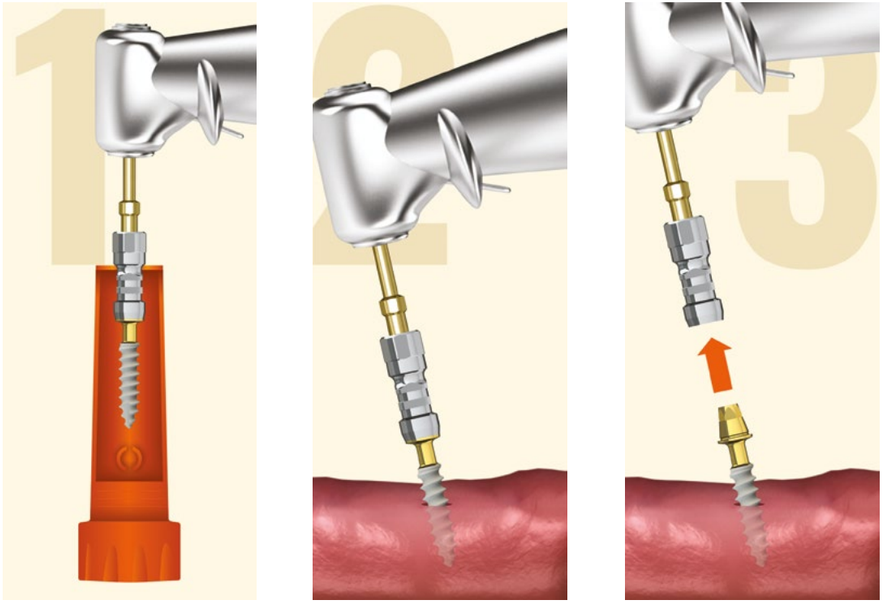

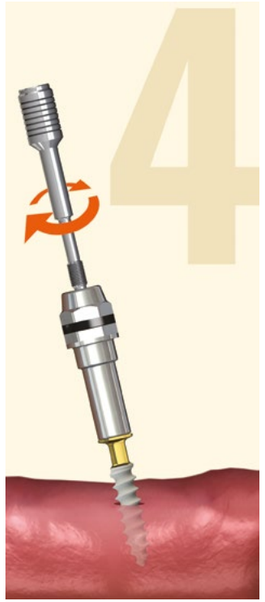

From Step 5 and on,
the K3D can also be used.

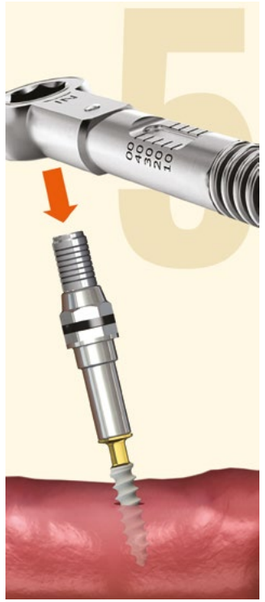

DRIVER OPTIONS

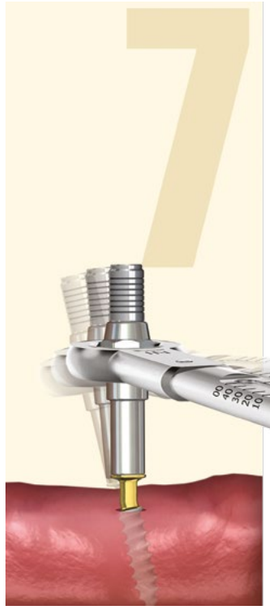

DRIVER OPTIONS

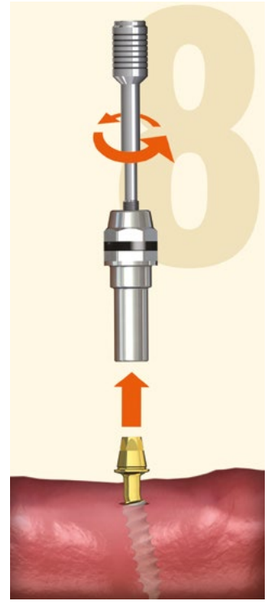

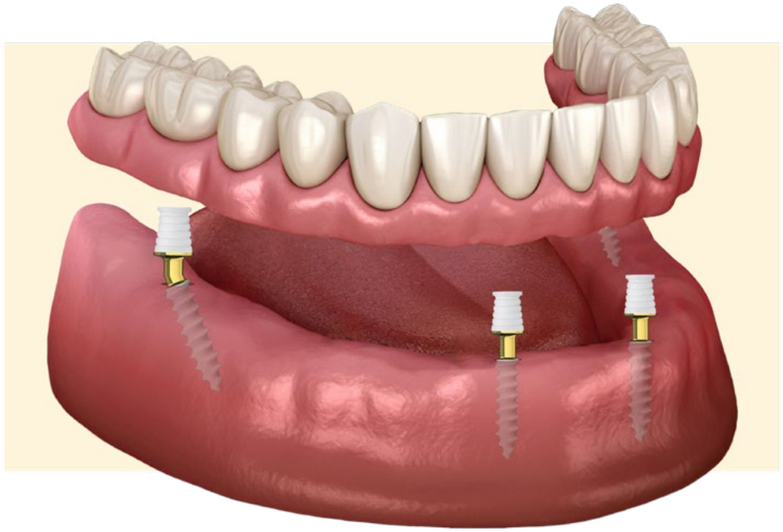

⚠ The outreach of the ratchet can be usedto apply the required pressure for the bending of the Implant Neck, please apply the pressure slowly and keep in mind the neck can only be bent once!
A repeated attempt to bend the neck back and forth and will significantly weaken the implant and may lead to a possible failure.
